by Mayor Mike Callahan

Welcome to Autumn in Cheverly: October brings beauty to our tree canopy, children to our soccer fields, and some of the finest Halloween decorations in the Washington DC area. There is a lot happening around town, as described in Community News Section of the Newsletter, but make sure to take some time to enjoy the beauty of living in Cheverly.

Friday Afternoon Clean-ups: I have spoken frequently about the need for balance when enforcing the Town Code. One of the most difficult problems the Town Staff faces is enforcing the rules around trash collection. No matter how often we publish the trash schedule, residents continue to place trash out on the wrong days.

One of the most common problems is when residents leave yard waste at the curb on whatever day they perform yard work. Yard Waste pick-up is on Monday. Please don't leave Yard Waste out on other days of the week or it will remain there till the following Monday. You are responsible for any yard waste in front of your property, whether you placed it there or not.

The council recently agreed with a recommendation from town staff that *we re-initiate a program where Public Works picks up all yard waste that remains on sidewalk on Friday*. This program is designed to keep our sidewalks free from Yard Waste over the weekend, when people are visiting our town. There will be a fee associated with this pick-up which will be assessed at the time of pick up.

Tree Trimming Around Town: The summer has not been kind to our street tree canopy. There are many damaged trees and hanging branches that require trimming throughout town that are simply out of reach of our current equipment. Therefore, the town has rented a cherry picker from mid-September to mid-October in order to address these issues. So look for our Public Works Director and staff in a street tree near you.

Cheverly Industrial Park – Potential New Tenants: Earlier this year we heard that our long time neighbor Craftsman Printing filed for bankruptcy. This was very disappointing because the management of Craftsman was a strong advocate for the town, and they were a significant contributor to our Industrial tax base.

Mayor FYI con't

Cheverly has recently been approached by an “electronic recycling” firm that would like to locate here. At this time the Prince George’s County zoning code does not have a category for “electronics recycling”, therefore there would need to be a change in the zoning code to allow this company to locate here. The Town Council will consider this matter in the September 27th and October 11th Town Meetings, to determine what position we should take.

Initial conversations with friends in the industry indicate that other states allow this use in light industrial areas, which is what our Industrial Park is zoned for. Electronics Recyclers operate indoors which eliminates potential noise issues. The key focus area for the council will be whether the indoor operations meet current industry standards and whether there will be stipulations to improve conditions as industry standards improve.

Bellevue Traffic Patterns (3400 Block) :

In anticipation of the eventual completion of the Church on Medical Terrace the Town Council is considering measures that will minimize traffic issues in the very congested area of Medical Terrace and Bellevue Avenue. While there is no set timetable for the completion of the Church, the Town Council has been discussing this issue (at the behest of Councilwoman Riazzi), off and on for over a year. The council is considering making Medical Terrace a one way road and creating “permitted parking areas” on lower Bellevue and near the homes on Medical Terrace.

Caribbean Festival Comes to Town: On Sunday September 9th a number of residents in town complained about loud music heard throughout town. Throughout the afternoon, virtually everyone in town could hear music that was loud enough that residents thought it was coming from their neighbor’s home. After some investigation it was clear that the music was not originating from within Cheverly, but instead from the Capital Plaza on Route 450. Many residents found this hard to believe because the sound would have had to carry over a hill. However, it is a fact the music came from this area.

The town has followed up with the Nellis Corp who owns the property to identify if any other festivals are planned and to obtain emergency contact numbers if the situation re-occurs

Working with Smith and Sons on Town Issues:

Councilwoman Coolen and I have opened a dialog with Smith and Sons (the Salvage Yard south of Route 50) regarding issues raised by town residents. Key issues raised are; odors emanating from the site, grinding sounds from the site and of course “booms” that may originate there. Discussions so far have been fruitful, and the Smith Corporation has already addressed the odor issue and is in the process of evaluating whether sound walls would suppress the grinding noises. We have also begun communicating directly when a boom is reported by a resident so that they can cross reference their operational logs. For example when the large boom was reported on September 9th, The Smith operation was not operating.

Working with CSX on Booms: Over the years many town residents have asked whether “coupling train cars” is a potential source of our booms. After the boom on September 9th, a resident with experience in train yards reported that he was sure it was caused by a coupling train. Based on that feedback, the town has reached out to CSX to open discussions about how we might work together to identify if this is a source of the problem. We will report on status as it occurs.

Safe Routes To School Grant Finally Completed:

Over the last month the final touches of the Safe Routes to School grant have been completed. This grant allowed the town to make safety improvements near Spellman, Hoyer and St Ambrose School. The primary improvements were the raised cross walks along the 63rd Avenue corridor, safety training in the schools, and bike racks at the schools. This month we finally stamped the raised cross walks with faux red brick and installed pedestrian lights at the corners of Cheverly Ave and Kilmer as well as Cheverly Ave and Forest. One final Thank You goes out to Councilman Eldridge who initiated the Safe Routes to School Grant process.

Town Council will vote on Charter Amendment to change the referendum process: In the October town meeting the Town Council will vote on legislation to change the Town Charter altering the referendum process. I'll bet most of you didn't know we had a referendum process. Currently the charter allows for a referendum to be included on the ballot if 10% of registered voters sign a petition.

The Charter Amendment raises the threshold of signatures from 10% to 20% of registered voters for a petition to be accepted, and excludes our yearly Budget Ordinance and other financial matters such as bond bills from referendums.

- Raising the percentage of signatures required for a valid petition to 20% will put Cheverly in line with other municipalities in Maryland. Of the 40% of municipalities in Maryland who allow petitions, the vast majority require at least 20% of registered voter signatures.

- Excluding the Budget and Financial Items is also the norm among other municipalities. The budget is typically discussed over a 4 to 5 month process which provides plenty of opportunity for residents to participate. If after the budget passes, a referendum would greatly hinder the Town's ability to operate.

The Charter Amendment will be discussed again in the September and October Town Meetings. As a point of clarity, referendums regarding Municipal Charter Amendments already require 20% of registered voters. Charter Amendments are governed by state law which requires 20%.

Meeting Agendas are updated on website: www.cheverly-md.gov and on Cheverly cable channel 71.

**Town Meeting broadcast LIVE on Cable 71 & Fios 35.
Re-broadcast everyday at noon 6:00 PM & 10:00 PM**

Message from the Chief Buddy Robshaw
(policechief@cheverly-md.gov)

IMPORTANT CHANGES IN MARYLAND TRAFFIC LAW THAT TAKE EFFECT OCTOBER 1, 2012

1. Non-Functioning Traffic Lights – Effective October 1, any driver approaching a non-functioning traffic control signal (traffic light) from any direction at an intersection must:

- * Come to a complete stop at the clearly marked stop line, before entering any crosswalk, and/or before entering the intersection;
- * After stopping, the driver must yield to any vehicle or pedestrian already in the intersection and remain stopped until it is safe to enter and proceed through the intersection.
- * If two vehicles approach at the same time, the driver on the left must yield the right-of-way to the vehicle on the immediate right.

(Note: This law does not apply to flashing red or yellow lights in opposite directions. Flashing red lights means the driver must stop and can only proceed when the intersection is clear. Flashing yellow lights means the driver should slow down and use caution. Regardless of any light situation, a police officer directing traffic at an intersection has priority over any light, flashing or otherwise.)

2. Scooter and Moped Operators/Riders – Effective October 1, all motor scooter and moped operators and riders must:

- * Wear a helmet;
- * Wear eye protection or utilize a vehicle windscreen;
- * Have and maintain proof of insurance on the scooter or moped; and
- * Title the scooter or moped and display a special MVA sticker.

(Note: Cheverly police officers will not issue tickets for insurance or the displayed sticker only until after November 1, 2012.)

C-PACT/CHEVERLY WATCH RESIDENT RADIO PROGRAM MEETING – There will not be a joint meeting of C-PACT (Cheverly – Citizens and Police Together), Cheverly's Neighborhood Watch Organization, and the Cheverly Watch Resident Radio Program for the month of October 2012.

Cheverly Cub Scout Pack 257 kicked off the fall season by welcoming new members, participating in the Cheverly Police Public Safety Day, and conducting a water shed quality survey around our community. The highlight of the month was our district campout where cubs earned awards for archery, soccer, music and BB guns.

In October Cheverly Cub Scouts will be exploring America's Native American cultural heritage and learning how navigate in the woods. Next month Cheverly residents are asked to be on the lookout for our "Scouting for Food" bags on your doorsteps. Last year scouts collected 140 bags of food-stuffs for local food banks. We will also be selling POPCORN again! Funds will allow Cheverly youths to participate in educational outings this year.

Scouting provides an opportunity for boys 6-11 and their families to learn and grow through conducting community service and environmental stewardship activities. For more information contact Cubmaster Dave at 202 744-7100.

LEAF COLLECTION PROCEDURES

Vacuuming Leaves: Every street in Cheverly is scheduled for at least 2 vacuuming sweeps.

Rake leaves **between** the curb and sidewalk - not on the street or sidewalk.

- Keep leaves free of twigs, branches, metal, concrete and other debris that can jam or damage the equipment.
- Please do not park cars on the street on the assigned collection day
- Be considerate of your neighbors. Only rake to curb when your pick up day is imminent. Raking too early, allows the leaves to blow into your neighbors yard.

Bag Leaves: Yard waste is collected on **MONDAYS**. Put bags at the curb on Sunday evening. Use **CLEAR PLASTIC BAGS** only (sold at Town Hall or Public Works \$5 for 50 bags). Yard waste includes leaves, grass, brush, twigs, etc. Do not put any dirt, rocks, or other trash/debris in these bags.

If you have any questions, please call Public Works at 301-773-2666.
